

# BMW 2002 turbo.

Registration:	VPJ 854S
Year of manufacture:	1974
Engine:	1,990 cc, M10 four-cylinder, Turbocharged, 12-valve
Max output:	170hp @ 5800rpm, 240Nm (177lb ft) @ 4,000rpm
0-62mph:	6.9 seconds
Top speed:	131 mph
Price when new:	£4,220 (1974)

## **Additional Comments:**

The BMW 2002 Turbo was an impressive demonstration of the performance benefits of turbocharging. By boosting its 2.0L 4-cylinder engine, BMW gave it 170hp and a subsequent 0-62mph time of 6.9 seconds (in the early 70s'). Incredibly impressive, considering the technology was still an unknown to most manufacturers.
